

# Roster signs 01 – Artwork dimensions

**Aim:** To provide instruction on how to correctly set up the artwork for roster signs

Roster signs are available in three sizes: large; medium; and small. The width of each size is the same – 600mm. The difference between the three sizes is the height.

The large sign when flat is 600 x 1510mm – each side is 755mm high.

The medium sign when flat is 600 x 910mm – each side is 455mm high.

The small sign when flat is 600 x 600mm – each side is 300mm high.

The artwork is to be set up at the dimensions above, with 3mm bleed

on each side. While the signs have a base, this is not to be included in the artwork.

Note that the artwork on side 2 must be set upside down.

If the signage is directional, arrows must face the same way on both sides (see sample below).
